

STORAGE MANAGEMENT SOLUTIONS :

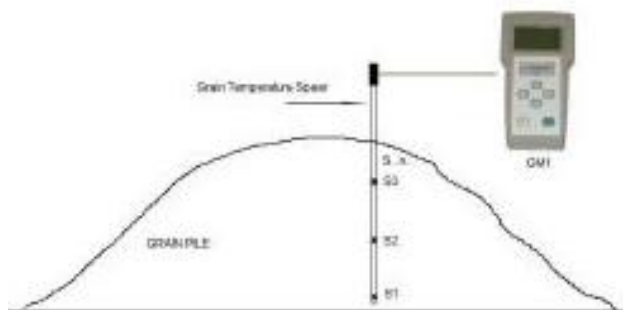

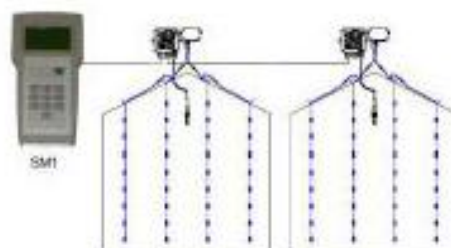

The grainManagerPro system enables real time remote monitoring and control of moisture and temperature. Brings management to your fingertips with new defined grain quality technologies.

- HAND HELD MONITORING
- PC BASED MONITORING AND CONTROL
- WIRELESS OPTIONS
- INFORMATION MANAGEMENT AND ANALYSIS
- TEMPERATURE MEASUREMENT
- HUMIDITY MEASUREMENT
- AERATION CONTROL

✓ SILO TEMPERATURE MEASUREMENT

✓ SILO HUMIDITY MEASUREMENT

✓ GRAIN PILE TEMPERATURE MEASUREMENTS

✓ FLAT STORAGE GRAIN TEMPERATURE MEASUREMENTS

GrainManagement

SiloManager (SM1) and GrainManager (GM1) HAND HELD MONITORS

General Features :

- Graphical Display
- Reads temperatures and moisture
- Data Logging capability
- PC connector (USB)
- Backlit screen for viewing in dark conditions
- Battery operation
- Measurements from long distances
- MMC / SD Card for data

Applications :

- Grain Temperature Spear
- Silo Temperature Measurements
- Grain Piles Temperature Measurements

Benefits :

- Multipoint measurements (hundreds of sensors)
- Multi spear measurements (spears connected to each other)
- Measurements from long distances
- Data Logging
- Serial communication

Version 3.0
